[redacted]

Between 1430 and 1530 on 18 May 1954, no activity was observed in the area of Zwoelfaxing (P 49/33 U/WP 0929) airfield. The previously reported grading work at the field seemed to be completed. This area was not designed to enlarge the field, but apparently had been graded for the sowing of grass. The [illegible]-type radar set was located at its previous site and was not in operation.

[redacted] Comment. No changes were observed at Zwoelfaxing airfield when compared with the last observation on 6 May 1954. For location sketch of graded area, see Annex.
